

# PM-10

Drum Amplifier

**Availability:** April **RRP:** £199

Designed as a portable companion for Roland's V-Drums, the new PM-10 is equipped with a 30-watt amplifier and a 10" two-way co-axial speaker. Its compact design is perfect for smaller drum kits such as the TD-3K and the TD-6KV. Jam along with your favourite songs by connecting an external CD or MP3 player to the Line-in jack.

## THE LOWDOWN: SELECTED SPEC

- Powerful 30-watt amp with 10" two-way co-axial speaker
- Line-in jack to attach MP3 or CD player
- Power supply included – just plug and play
- Two-band EQ for sound shaping and tone adjustment
- Ideal for use with the TD3-K and the TD-6KV
